

PROFILE

Sciences Po is a prominent institution of higher education and research that is internationally recognised for the excellence of its curriculum, teaching methods and research. Created in 1872, Sciences Po offers traditional degree programs as well as continuing education, research, and publications. Sciences Po aims to train future leaders in the fields of business, public administration, research, international institutions, NGOs, journalism and legal affairs. An international admissions process exists for all undergraduate, masters, doctorate, and dual degree programs.

Main programmes of study

- Sciences Po College: A multidisciplinary three-year undergraduate curriculum (law, economics, history, international relations, political science, sociology) offered on 7 multicultural and multilingual campuses in France. This programme leads to a Bachelor-level degree (240 ECTS credits)

<http://college.sciences-po.fr>
